How to measure your ring size:

- 1) Print out this document. Ensure that when you are printing you DO NOT select the option to fit to page or to shrink to page.
- 2) Measure the outer box and ensure that it is 160mm by 160mm.
- 3) Measure a ring that fits against the chart so that one of the circles matches the internal diameter of your ring.

Please note:

- 1) Rings with a wider band need to be a larger size, even to fit the same finger, so try to use a ring of similar width to the one that you are ordering.
- 2) Check that both sides of your ring are the same size.
